

THE NATIONAL

APMA ANNUAL SCIENTIFIC MEETING
WASHINGTON, DC / JULY 12-15, 2018

2018 FINAL PROGRAM

www.apma.org/thenational

APMA
AMERICAN PODIATRIC MEDICAL ASSOCIATION

Diagnostic Excellence, Innovation & Education

It's been our honor to support the American Podiatric Medical Association as a Corporate Sponsor these past nine years and we're proud to be a Diamond Sponsor and the Opening Session Sponsor of the 2018 Annual Scientific Meeting!

Proudly Serving the Podiatric Medical Community

Diagnostic Services

Therapeutic Solutions

Biopsy Instruments

Learning Center

- ▶ Comprehensive Dermatopathology services with over 2 million samples analyzed including 1.4 million nail dystrophy cases
- ▶ In-network with more than 250 million covered lives including all five national health plans
- ▶ PCR + Anatomic Pathology for rapid and accurate identification of fungal organisms
- ▶ All national payors require fungal genus and species identification for targeted antifungal therapy

President's Letter

Dear Colleague,

Welcome to Washington, DC, and APMA's **2018 Annual Scientific Meeting (The National)**.

I look forward to being part of this outstanding event with you.

The National is truly the must-attend event for every podiatrist, covering the entire spectrum of foot and ankle care.

Be sure to join us Thursday morning for the official kick-off of The National at the opening address. Our colleague Rep. Brad Wenstrup, DPM (R-OH), will share his experience as the first podiatrist to serve as a member of the US House of Representatives. Rep. Wenstrup has been a leading advocate for the profession and its patients since taking office. As a combat veteran, active member of the US Army Reserves, and former chair of the Veterans' Affairs Committee Subcommittee on Health, he was instrumental in advancing APMA's VA Provider Equity Act to victory in Congress.

On Friday and Saturday, enjoy surgical blitz sessions, with 10-minute lectures on the hottest topics in foot and ankle surgery today. Stick around Friday afternoon to take advantage of tracks provided by our participating organizations, expanding the breadth of coverage at the meeting with content on everything from sports medicine to heel pain to flatfoot surgery.

Enjoy the latest science shaping the practice of podiatry on Saturday at our oral abstracts session and the poster abstracts symposium. Also on Saturday, find out how well our students have been learning their lessons when you come out to support your alma mater at a friendly competition during the extremely popular student quiz bowl. Young physicians will enjoy the return of Young Physicians' Lunch and Learn sessions, as well as content tailored to their needs throughout the program.

Speaking of lunch, if you didn't sign up to attend one of the great non-CECH lunch symposia we're offering Thursday, Friday, and Saturday, be sure to join us on Thursday and Friday during the lunch break at the APMA booth (#633) for our social media workshops. APMA's social media experts will show you how your presence on social media can reshape your practice.

On Sunday, get the inside scoop on the APMA Registry and MIPS in 2018 at breakfast, then enjoy the benefits of our renowned Coding Seminar, honoring the late Harry Goldsmith, DPM.

Be sure to take some time outside of the educational program to peruse our vast exhibit hall and thank the many great companies on hand to share their products and services and support podiatric medicine.

On that note, I extend my sincere thanks to our outstanding sponsors who have made this event possible for APMA and its attendees. We are fortunate to enjoy the support of these wonderful companies that play a vital role in our podiatry community.

Most importantly, I thank you for being here. Your presence helps to expand our diverse community and create the wide variety of perspectives that make The National such a unique meeting experience. We hope you will share your perspectives about the meeting with us via the meeting evaluation form, which will be available soon after the close of the meeting. We look forward to delivering an exceptional event.

Sincerely,

Dennis R. Frisch, DPM
President

Meeting Information and Resources

Registration

Potomac Ballroom Foyer

Wednesday, July 11	2:00-6:00 p.m.
Thursday, July 12	5:30 a.m.-5:00 p.m.
Friday, July 13	6:30 a.m.-6:00 p.m.
Saturday, July 14	6:30 a.m.-6:00 p.m.
Sunday, July 15	6:30 a.m.-1:00 p.m.

Fees

APMA Member	\$599
APMA Life Member	\$299
DPM (Non-APMA Member)	\$799
Health-Care Professional	\$799
APMA Member Student/ Resident/Fellow	Complimentary
APMA Member Young Physician	\$299
APMA Member Residency Director	\$299
APMA Member Federal Services or Active Duty Military*	\$299

**This rate is available only to members of the Federal Services component society.*

All programs and special events for the APMA 2018 Annual Scientific Meeting (The National) take place at the Gaylord National Resort & Convention Center.

Winners Wanted!

Could you be a winner? There's a good chance you will be when you enter any of the numerous raffles being offered by select vendors in the exhibit hall. You'll have plenty of opportunities to walk away with great prizes: apparel, electronics, shoes, gift cards, and more. A complete list of vendors offering raffles is available at the registration desk, the information table, the APMA booth (#633), and the meeting mobile app.

Exhibitions

Prince George's Exhibition Hall C-E

Thursday, July 12-Saturday, July 14
9:00 a.m.-2:30 p.m.

Grand Opening

Thursday, July 12, 9:00-10:00 a.m.

See page 49 for the exhibit hall layout. Lists of exhibitors organized alphabetically and by category begin on page 50.

Products displayed in the exhibit hall have not been investigated or approved by APMA with regard to efficacy or regulatory compliance. Each physician should perform his or her own due diligence regarding any claims made about products displayed.

Exhibit Hall Grand Opening

Thursday, July 12

9:00-10:00 a.m.

Follow the crowd from the Opening Address to the grand opening of the exhibit hall (Prince George's Exhibition Hall C-E). From footwear to wound care, marketing, management, and more, you'll find a rich array of product offerings in the exhibit hall. Representatives are on hand to answer questions, provide demos, and take orders.

Finding the products and services you need couldn't be easier. Visit the hall often, and be sure to thank vendors for their support of The National.

Note: All refreshment and lunch breaks (except non-CECH luncheons) take place in the exhibit hall.

Resort Navigation

All Attendees

Readerboard kiosks with touch-screen maps are available throughout the Gaylord National Resort & Convention Center to assist you in finding your meeting room.

iPhone Users

Enrich your experience at the hotel and convention center by using your iPhone's GPS and the property's Bluetooth beacon technology. Pinpoint your exact location within the resort and let the app guide you with turn-by-turn directions and a map to your breakfast symposium, general session, dinner with colleagues, or even your hotel room. Plus, you can opt in to receive proximity-based notifications for special offers throughout the resort during your visit.

Visit www.NavigateGaylordHotels.com or the App Store to download the Navigate Gaylord Hotels app.

Note: The app functions only when you are on site at a Gaylord property.

Young Physicians at The National

APMA recognizes the unique perspective young physicians (YPs) bring to the organization, as well as their unique educational needs. At The National, APMA has

scheduled specific sessions and tracks that focus on the needs and interests of YPs, and a number of YPs are serving as faculty throughout this prestigious meeting. The sessions and tracks that might interest YPs in attendance are identified with a special YP symbol throughout the DPM educational program for your convenience, and YPs serving as faculty are identified with an asterisk.

Harry Goldsmith, DPM, Memorial Coding Seminar

APMA has renamed in perpetuity the coding lectures held in conjunction with The National as the Harry Goldsmith, DPM, Memorial Coding Seminar.

Dr. Goldsmith was a noted coding expert and a consultant to the APMA Health Policy and Practice department. His vast knowledge of coding was instrumental in the development and evolution of the APMA Coding Resource Center, and he supported APMA's RUC and CPT initiatives, committee activities, and other efforts.

APMA Meetings Mobile App

For the most up-to-date information, visit www.apma.org/thenational, or download* our APMA Meetings mobile app for information on the go.

iPhone and iPad Users

Find the APMA Meetings app in the App Store.

Android Users

Visit the Google Play Store.

** Past attendees: If you already have the APMA Meetings app on your mobile device, simply select the 2018 Annual Scientific Meeting when you open the app.*

Pick Up Your Abstracts Book at Registration

The oral and poster abstracts are listed in a separate publication, available at the registration desk. Be sure to pick up your abstracts book to peruse the cutting-edge science being presented at The

National, and don't miss the oral abstract presentations on Saturday, July 14, from 10:00 a.m.-12:00 p.m. and the Poster Abstracts Symposium on Saturday, July 14, from 1:00-2:00 p.m.

Schedule at a Glance

Special Events

Opening Address

Thursday, July 12

8:00-9:00 a.m.

Potomac Ballroom C 1-3

Sponsored by a generous grant from Bako Diagnostics.

Rep. Brad Wenstrup, DPM (R-OH), the first podiatrist to serve as a US Congressman, will open The National with a keynote address Thursday morning. Now in his third term, Dr. Wenstrup, a veteran of the Iraq war and Army Reserve officer, has distinguished himself not only as a legislator,

but also as a powerful advocate for veterans and the profession of podiatry.

Dr. Wenstrup was the primary sponsor of APMA's VA Provider Equity Act. The legislation was passed by Congress as part of the VA MISSION ACT, allowing podiatrists serving within the Veterans Health Administration the same professional opportunities their allopathic and osteopathic colleagues enjoy, and easing recruitment challenges that have jeopardized quality health care for veterans.

APMA Social Media Forums (NON-CECH)

Thursday, July 12

12:45-1:15 p.m.

APMA Booth

(#633 in the Exhibit Hall)

Social Media 101

Friday, July 13

12:45-1:15 p.m.

APMA Booth

(#633 in the Exhibit Hall)

Advanced Social Media

Sponsored by a generous grant from PharmaDerm, a division of Fougera Pharmaceuticals Inc.

Establishing a presence on social media can be intimidating. The National provides a great opportunity to discuss all the ins and outs with APMA staff experts and your peers. APMA offers two lunchtime social media seminars (non-CECH) in the mini-theater at the APMA booth. Grab your lunch and come over to Booth #633 to get answers to these questions and more:

- Why is it important for physicians to have a presence on social media?
- Do I have a responsibility to participate in social media?
- What should I know before signing up?
- Which platform is right for my practice?
- What should I share?
- How do I measure the return on my investment?
- How do I handle negative comments?

Special Events

Podiatry Management Podiatry Hall of Fame Induction Ceremony and Reception

Thursday, July 12

6:00-7:00 p.m.

Potomac Ballroom C 1-3

This year's event is sponsored by:

SILVER

BRONZE

Join *Podiatry Management* for its annual Podiatry Hall of Fame awards ceremony and reception on Thursday, July 12. This year's honorees are Rep. Brad Wenstrup, DPM (R-OH), and Daniel F. Vickers, executive director, The Podiatry Institute.

Individual tickets are \$75. If you did not purchase your ticket(s) when you registered for The National, visit the APMA booth (#633) before the Thursday evening event.

You must be registered for The National to attend the induction ceremony and reception.

Proceeds from ticket sales benefit the APMA Educational Foundation Student Scholarship Fund. Scholarships are awarded annually to third- and fourth-year podiatric medical students from the nine colleges of podiatric medicine.

Podiatry Management's Podiatry Hall of Fame was created to recognize a podiatrist's and a non-podiatrist's accomplishments in the podiatric medical profession. This award is unique in that recipients are not selected by a committee, but by the results of American podiatrists' votes in *Podiatry Management's* annual survey.

Special Events

Team APMA 5K Run/Walk

Saturday, July 14

6:00-7:00 a.m.

SHIRT SPONSOR

TITLE SPONSOR

GENERAL SPONSORS

Run, walk, or sleep in support of the APMA Educational Foundation Student Scholarship Fund. Plan on getting your Saturday morning off to an energetic start—or sleep in by registering as a sleeper—and support podiatric medical students.

APMA will host the eighth annual Team APMA 5K Run/Walk event at The National. The race will take place on site at APMA's host hotel, the Gaylord National Resort & Convention Center.

Attendees may sign up at the APMA booth (#633). The event is open to attendees registered for The National and exhibitors attending the meeting. Family members of registrants and exhibitors are welcome to participate. Registration is \$20 for podiatric medical students and \$25 for all others.

Runners and walkers receive a free ASICS America Corporation shirt. Sleepers receive a complimentary cotton shirt. Shirt sizes are available on a first-come, first-served basis.

Registrants also receive a goody bag with more than \$100 worth of products.

Proceeds from the event support the APMA Educational Foundation Student Scholarship Fund. Scholarships are awarded annually to eligible podiatric medical students in their third or fourth year at the nine accredited podiatric medical colleges.

Special Events

Lunch Symposia (NON-CECH)

The non-CECH lunch symposia are ticketed events with a limited number of meals available. Meeting attendees who did not preregister for the lunch symposia may take any available seats only after the start of the programs. Due to Sunshine Act regulations, these programs are limited to *only* health-care professionals and office personnel.

Thursday, July 12
12:00-1:00 p.m.

NON-CECH LUNCH SYMPOSIUM 1 – Potomac Ballroom A
A Pharmacologic Approach to Treat Uncontrolled Gout with Tophi
FACULTY: Gordon K. Lam, MD

Sponsored by a generous grant from Horizon Pharma, Inc.

NON-CECH LUNCH SYMPOSIUM 2 – Potomac Ballroom B
The Underlying Thrombotic Risk in Patients with Atherosclerotic Vascular Disease
FACULTY: John N. Evans, DPM

Sponsored by a generous grant from Janssen Pharmaceuticals, Inc.

Friday, July 13
12:00-1:00 p.m.

NON-CECH LUNCH SYMPOSIUM 1 – Potomac Ballroom A
Treatment of Onychomycosis and Tinea Infections with Topical Antifungal Medications
FACULTY: Robert J. Toomey III, DPM

Ortho | Dermatologics *Sponsored by a generous grant from Ortho Dermatologics.*

NON-CECH LUNCH SYMPOSIUM 2 – Potomac Ballroom B
Understanding the Latest Evidence: A Fresh Look at the Use of Skin Substitutes Across the Wound Care Continuum
FACULTY: Ira H. Kraus, DPM, and Andrew J. Rader, DPM

Sponsored by a generous grant from Organogenesis Inc.

Saturday, July 14
12:00-1:00 p.m.

NON-CECH LUNCH SYMPOSIUM 1 – Potomac Ballroom A
Advanced Wound Care Through the TIME Principles
FACULTY: Ann M. Zmuda, DPM

Sponsored by a generous grant from Smith & Nephew.

NON-CECH LUNCH SYMPOSIUM 2 – Potomac Ballroom B
Re-Thinking Skin Infections: Treatment Options for Your ABSSSI Patients
FACULTY: Warren S. Joseph, DPM

Sponsored by a generous grant from Melinta Therapeutics.

A PHARMACOLOGIC APPROACH TO TREAT UNCONTROLLED GOUT WITH TOPHI

JOIN US FOR AN INTERESTING CONVERSATION THAT MAY CHANGE THE WAY YOU APPROACH GOUT.

Program Highlights

- Recognize that there is more to gout than just the pain of episodic flares¹⁻⁴
- Learn how tophi can cause bone erosions, which can occur without symptomatic pain¹⁻⁴
- Discuss how to recognize uncontrolled gout and learn about a pharmacologic option to treat these patients

July 12, 2018

12:00 PM-1:00 PM ET

Location: Potomac Ballroom A

Speaker: Gordon Lam, MD

Continuing Education Contact Hours

Podiatric Physicians

APMA is approved by the Council on Podiatric Medical Education as a provider of continuing education in podiatric medicine. APMA has approved this activity for 27.5 continuing education contact hours (CECH)*. Approval of the program has been requested from all state licensing boards.

In accordance with the requirements of the Council on Podiatric Medical Education, APMA is required to monitor educational session attendance for verification of CECH.

Badges are bar-coded with your personal information and must be scanned.

To ensure that APMA continues to provide you with a meaningful educational program and exceptional conference experience, APMA requires that all attendees complete the overall meeting evaluation form in order to receive a CECH certificate and verification report. The evaluation form will be available online via "My CECH" under "My Account" on APMA.org a few weeks after the conclusion of the meeting. You will receive an email when the form is available.

Each registrant is responsible for reporting his or her attendance to all appropriate boards and agencies requiring continuing education.

Credits may be registered with state boards by providing them with a copy of your CECH certificate.

** This number is based on attendance at all general session lectures, breakfast symposia, plenary lectures, and the APMA Poster Abstracts Symposium.*

Podiatric Medical Assistants

The American Society of Podiatric Medical Assistants (ASPMA) is approved by the Commission on Accreditation of Podiatric Medical Assisting Certification (CAPMAC) as a sponsor of continuing education in podiatric medical assisting. Program participants may earn up to 27.5 CECH. Only 20 credits are required per year for certification renewal.

In accordance with CAPMAC requirements, ASPMA is required to monitor educational session attendance for CECH verification.

Badges are bar-coded with your personal information and must be scanned.

A continuing education certificate of attendance will be mailed to all meeting registrants by ASPMA within 45 days of the close of the sessions. Each registrant is responsible for reporting his or her attendance to the recertification committee.

NOTE: CECH functions are for registered attendees only. APMA's official policy is to provide attendees with a certificate of attendance that reflects only the number of CECH scanned. To receive the maximum number of CECH, you must be scanned at each of the listed scanning sessions.

Continuing Education Contact Hours

CECH Scanning Schedule for Podiatrists and Assistants

To receive your CECH, you must scan your badge during each of the noted scanning times. Below are the scanning schedule, scanning locations, and contact hours available:

Thursday, July 12

9:00-10:00 a.m.

Scanning in the exhibit hall
1.5 contact hours

11:30 a.m.-1:30 p.m.

Scanning in the exhibit hall
1.5 contact hours

4:30 p.m.

Scanning outside the lecture hall
2 contact hours

Friday, July 13

9:30-10:00 a.m.

Scanning in the exhibit hall
2.5 contact hours

11:30 a.m.-1:30 p.m.

Scanning in the exhibit hall
1.5 contact hours

5:30 p.m.

Scanning outside the lecture hall
4 contact hours

Saturday, July 14

9:30-10:00 a.m.

Scanning in the exhibit hall
2.5 contact hours

12:00-1:00 p.m.

Scanning in the exhibit hall
2 contact hours

Poster Abstracts Symposium

Scanning in the poster exhibit
1 contact hour

6:00 p.m.

Scanning outside the lecture hall
4 contact hours

Sunday, July 15

10:30-11:00 a.m.

Scanning outside the lecture hall
3.5 contact hours

12:30 p.m.

Scanning outside the lecture hall
1.5 contact hours

APMA Continuing Education Mission Statement

The American Podiatric Medical Association (APMA) advances and advocates for the profession of podiatric medicine and surgery for the benefit of its members and the public. To this end, APMA offers continuing education opportunities for podiatric physicians to meet their licensing requirements, to maintain and expand their knowledge, to provide optimum patient care, and to receive updates on advances in foot and ankle care. These educational opportunities may include face-to-face, web/computer-based, and audio/video recorded continuing education activities. The APMA Annual Scientific Meeting provides live, face-to-face continuing education in lecture, moderator-guided panel discussion, and hands-on workshop formats.

Educational Program Objectives

At the conclusion of this program, attendees will:

- recognize dermatological conditions that present in the lower extremity, learn effective management of skin and soft tissue infections and the latest information on new treatments for warts and skin infestations, and be able to develop differential diagnoses to include uncommon dermatological and systemic conditions, nail bed pathology, skin lesions, and infant and toddler toenail conditions;
- recognize the incidence and prevalence of gout as it affects the podiatric population, identify radiographic changes associated with gout, apply various conservative measures in the treatment of patients with acute and chronic gout, know when to refer to a rheumatologist, and understand advanced treatment options;
- gain a better understanding of the principles and standards of care for wounds, including proper assessment of lower extremity wounds and inflammatory-based wounds, wound care in the trauma patient, cellular senescence, diagnosis of peripheral arterial disease, treatment options for diabetic foot wounds, the use of new technologies in wound care, and Charcot treatment options;
- learn how to perform a comprehensive time-efficient biomechanical exam, understand biomechanics of the kinetic chain, and be able to implement this knowledge immediately in patient treatment;
- become aware of the standards of care in biomechanics and review conservative and surgical treatment options for deformities of the foot and ankle;
- understand the cause of heel pain from entrapment/injury of the medial calcaneal nerve and treatment options;
- know the importance of core stability for lower extremity injury prevention and treatment, biomechanical principles of walking and running gait related to the core and hips and how they impact foot and ankle function, simple exercises to strengthen the major core and hip stabilizers, and a comprehensive treatment plan for ankle sprains and shin splints;
- be able to describe a comprehensive treatment plan for the patient experiencing a complication after digital surgery, discuss an appropriate surgical approach for congenital digital deformities and the use of calcaneal autogenous bone grafts for toe repair surgery, and formulate an appropriate postoperative plan following complex digital surgery;
- know the indications, diagnosis, and surgical procedure for a first metatarsophalangeal (MTP) fusion, as well as when to consider early weight-bearing postoperatively and how to manage complications;
- understand hallux limitus etiology, joint salvage versus destructive procedures, and pearls of silastic implant surgery;
- understand the diagnosis and treatment options for Lisfranc fracture dislocation;
- appreciate the challenges associated with limb preservation in the at-risk patient including the presentation of postoperative complications, and advances in limb preservation technology;
- comprehend the histopathologic and microbiologic diagnosis of bone infection, clinical signs of osteomyelitis, laboratory analysis of osteomyelitis, a comprehensive diagnostic plan for osteomyelitis, and antibiotic treatment of osteomyelitis;
- appreciate the use of thermal imaging to evaluate and prevent limb loss;
- understand the role of diagnostic ultrasound in assessing foot and ankle tendon pathology, ligament pathology including Lisfranc injuries, high ankle sprains and plantar plate pathology, and soft tissue masses;

Educational Program Objectives

- identify ligamentous pathology of the foot and ankle, assess occult osseous pathology, evaluate tendon pathology of the foot and ankle, identify soft tissue and osseous lesions/masses, and recognize clinical scenarios where MRI would be appropriate to assess lesions/masses;
- appreciate the role of plain film radiography in the diagnosis of foot infections, recognize the clinical and radiographic signs of foot infections, and understand the role of advanced imaging in the diagnosis of foot infections;
- recognize the radiographic appearance of benign and malignant osseous neoplasms, know when it is appropriate to biopsy a suspicious lesion, and understand the need to consider early referral as well as a comprehensive team approach in dealing with various osseous neoplastic conditions;
- understand the use and various forms of medical cannabis for podiatric patients and the current state of medical marijuana laws across the US;
- understand the severe, growing problem of burnout within the medical profession and its effect on physicians and the entire health-care system, recognize the signs and symptoms of physician burnout, identify the multiple causes of this devastating problem, review the psychological and physiological nature of stress and its effect on the human mind and body, and discuss techniques to reduce the risk and intensity of burnout through self-directed activities;
- know the clinical signs and symptoms of chronic venous insufficiency (CVI), the physical findings of CVI, imaging studies used to diagnose CVI, and a reasonable comprehensive differential diagnosis for lower extremity pathology presenting in a similar clinical appearance to CVI;
- become familiar with an evidence-based protocol for starting patients on opioid analgesics, recognize risk factors for misuse, abuse, and diversion and the importance of opioid-prescribing regulations; better understand the impact of opioid addiction, the challenge of pain management, and the health-care policy issues related to pain, opioids, and addiction;
- improve knowledge of podiatric surgery including advances in surgical correction of forefoot deformities and surgical treatment of complex rearfoot and ankle conditions;
- appreciate the role of osteopathic manipulative medicine in the lower extremity and how to incorporate manipulative treatment into your practice;
- review and identify first MTPJ and ankle anatomy, indications for minimally invasive bunion and ankle fracture surgery, clinical and radiographic parameters, surgical techniques, postoperative care, and complications;
- recognize the medial column and other deformities that can be corrected from a medial approach; understand medial approach anatomy, different fixation techniques, and the complications and limitations of a medial approach to rearfoot pathology;
- know wound therapies that have approached a 90-percent success rate for healing wounds, use of alternative offloading techniques particularly felted foam, total contact casting and how to properly apply the cast, cellular tissue-based products, and how to utilize advanced wound care technologies for best outcomes;

Educational Program Objectives

- recognize and understand non-adherence in the podiatric geriatric population and strategies to help these patients adhere to treatment plans;
- become more familiar with serological testing for diagnosis of inflammatory joint disease, view complex diagnoses in podiatric rheumatology, and review recent treatment regimens for rheumatoid disease and their importance to the practitioner;
- learn the age-specific protocols of when and when not to post the forefoot in orthotics for the pediatric patient, the difference between forefoot varus and valgus posting and when to do a first ray cut-out or extension, common patient orthotic complaints directly related to poor forefoot control by orthotics, and common chief complaints of the pediatric patient and how they relate to the forefoot;
- learn how to address heel pain with conservative therapy, how to effectively use custom foot orthotics to address heel pain, neurogenic and traumatic causes of heel pain, imaging techniques and diagnostic modalities, algorithm for non-plantar fascial heel pain, procedure alternatives for recalcitrant heel pain, options for chronic fascial and tendon injuries, and Achilles tendon procedures;
- know how to improve patient outcomes through clear, comprehensive communication protocols, utilize protocols to increase office efficiency and identify quality metrics to improve patient care;
- understand the influence of the posterior muscle group on acquired flatfoot deformities, the types of posterior muscle group lengthening procedures, and different techniques of posterior muscle group lengthening to determine which may be best depending on the intended application;
- have an improved understanding of medical errors that result in amputation, malpractice claims, settlements, and their relationship to patient care;
- better understand controversial foot and ankle conditions and the evidence for pursuing specific treatment protocols;
- review and discuss board certification questions and answers from past certification examinations of the American Board of Foot and Ankle Surgery and the American Board of Podiatric Medicine to improve recertification outcomes;
- appreciate the importance of proper ethical decision-making in patient care;
- know the reporting options for MACRA in 2018, potential penalties and bonuses associated with MACRA, the implications of a low MIPS score, the different reporting mechanisms for the MIPS Quality category, and how using the APMA Registry can improve patient-care outcomes; and
- increase awareness of current coding issues and solutions for better patient care.

Nondiscrimination Policy for APMA Continuing Education Programs

APMA does not and shall not discriminate on the basis of race, color, religion (creed), gender, gender expression, age, national origin (ancestry), disability, marital status, sexual orientation, or military status in any of its activities or operations. APMA provides an opportunity for the learner with a disability who may require accommodations to participate fully to indicate such a status on the registration form for any continuing education activity. Requests for such accommodations are handled by the registration team, as required by the Americans with Disabilities Act of 1990.

asics
I MOVE ME™

A man and a woman are running on a dirt path during sunset. The man is on the left, wearing a dark long-sleeved shirt and black shorts, with blue and pink running shoes. The woman is on the right, wearing a blue tank top and leggings, also with blue and pink running shoes. Her hair is blowing in the wind. The background shows a hazy landscape with hills and a city in the distance under a warm, golden sky.

Breakfast Symposium 1

2018 Dermatological Update 

APMA has designated unrestricted educational grants from Acelity; NextGen Healthcare; Organogenesis Inc.; Ortho Dermatologics; PICA; The Rhett Foundation for the Advancement of Podiatric Medical Education; Smith & Nephew; and Vionic Group, LLC, to support this program.

MODERATOR: David G. Edwards, DPM
G. Dock Dockery, DPM, and Evan A. Rieder, MD

**POTOMAC
BALLROOM A**
6:30–8:00 a.m.

Breakfast Symposium 2

Evidence-Based Medicine and the Treatment of Gout 

APMA has designated unrestricted educational grants from Acelity; NextGen Healthcare; Organogenesis Inc.; Ortho Dermatologics; PICA; The Rhett Foundation for the Advancement of Podiatric Medical Education; Smith & Nephew; and Vionic Group, LLC, to support this program.

MODERATOR: Seth A. Rubenstein, DPM
Daniel P. Evans, DPM, and Gordon K. Lam, MD

**POTOMAC
BALLROOM B**
6:30–8:00 a.m.

Opening Address

Sponsored by a generous grant from Bako Diagnostics.

OPENING REMARKS: APMA President Dennis R. Frisch, DPM

OPENING ADDRESS: Rep. Brad Wenstrup, DPM (R-OH)

**POTOMAC
BALLROOM C 1-3**
8:00–9:00 a.m.

Exhibit Hall Grand Opening and CECH Scanning

9:00–10:00 a.m.

TRACK 1: Wound Care

APMA has designated unrestricted educational grants from Acelity, ETS Wound Care, Organogenesis Inc., and Smith & Nephew to support this program.

MODERATOR: Ira H. Kraus, DPM

**NATIONAL
HARBOR 2-3**
10:00–11:30 a.m.

Pyoderma Gangrenous and Other Inflammatory-Based Wounds

Tracey C. Vlahovic, DPM

10:00–10:20 a.m.

Biofilm Stimulating Inflammasomes Leading to Cellular Senescence

Matthew J. Regulski, DPM

10:20–10:40 a.m.

Bioactive Borate Glass in Wound Care

Charles M. Zelen, DPM

10:40–11:00 a.m.

Wound Care in the Trauma Patient

Ellianne M. Nasser, DPM*

11:00–11:20 a.m.

Questions and Answers

11:20–11:30 a.m.

SATURDAY / JULY 14

Breakfast Symposium

Risk Management Program—Amputations: They Can Happen to Anyone **YP**

APMA has designated unrestricted educational grants from Acelity; NextGen Healthcare; Organogenesis Inc.; Ortho Dermatologics; PICA; The Rhett Foundation for the Advancement of Podiatric Medical Education; Smith & Nephew; and Vionic Group, LLC, to support this program.

PICA policyholders attending The National are eligible for up to a 15-percent premium discount for attending the risk management programming. Those attendees who have participated in other meetings or the home study and received a 10-percent discount can receive an additional 5-percent discount for attending the risk management programming at The National.

MODERATOR: Leslie Campbell, DPM
Michelle L. Butterworth, DPM, and Larry M. Waranch, Esq.

POTOMAC BALLROOM A
7:00–9:00 a.m.

Plenary Lecture

Policy Issues Related to Pain Management, Opioids, and Addiction **YP**

APMA has designated unrestricted educational grants from Bako Diagnostics and Ortho Dermatologics to support this program.

MODERATOR: Lawrence A. Santi, DPM
P. David Charles, MD

POTOMAC BALLROOM A
9:00–9:30 a.m.

CECH Scanning in the Exhibit Hall

9:30-10:00 a.m.

TRACK 1: Oral Abstracts

APMA has designated an unrestricted educational grant from OCPM Foundation to support this program.

MODERATOR: Robin C. Ross, DPM

NATIONAL HARBOR 2-3
10:00 a.m.-12:00 p.m.

How to Turn a Research Project from an Abstract to a Peer-Reviewed Article

Warren S. Joseph, DPM

10:00-10:30 a.m.

ORAL ABSTRACTS

Radiographs are Poorly Correlated with Patient Centered Outcomes in Hallux Valgus Surgery

Michael R. Matthews, DPM*

A surgeon must always rely on his or her own professional clinical judgment when deciding whether to use a particular product when treating a particular patient. Stryker does not dispense medical advice and recommends that surgeons be trained in the use of any particular product before using it in surgery. The information presented is intended to demonstrate the breadth of Stryker's product offerings. A surgeon must always refer to the package insert, product label and/or instructions for use before using any of Stryker's products. Products may not be available in all markets because product availability is subject to the regulatory and/or medical practices in individual markets. Please contact your sales representative if you have questions about the availability of products in your area.

Often Imitated *Never Duplicated*

Urea is known for its hydration and keratolytic properties. Gormel Creme--with 20% Urea and a blend of rich emollients--moisturizes, exfoliates, and softens the skin. Gormel prevents and controls the painful cracked skin that can form on heels, and restores the skin to a healthy, radiant look.

Often imitated, never duplicated, Gormel Creme is the standard by which other Urea creams are measured.

ONYCHOMYCOSIS*

Your patient's dirty secret?

TIME TO CLEAN IT UP

★ AT THE SITE OF INFECTION! ★

JUBLIA[®]
(efinaconazole)
Topical Solution 10%

*For the treatment of onychomycosis of the toenail(s) due to *Trichophyton rubrum* and *Trichophyton mentagrophytes*.

JUBLIA allows some patients to have clearer toenails grow back.¹ Individual results may vary.

Nº1

**PRESCRIBED
BRAND FOR
TOENAIL FUNGUS²**

INDICATION

JUBLIA (efinaconazole) topical solution, 10% is indicated for the topical treatment of onychomycosis (tinea unguium) of the toenail(s) due to *Trichophyton rubrum* and *Trichophyton mentagrophytes*.

IMPORTANT SAFETY INFORMATION

- JUBLIA is for topical use only and is not for oral, ophthalmic, or intravaginal use.
- Patients should be instructed to contact their health care professional if a reaction suggesting sensitivity or severe irritation occurs.

References: 1. JUBLIA [prescribing information]. Bridgewater, NJ: Valeant Pharmaceuticals North America LLC. 2. Toenail fungus market summary – TRx: February 2018. IQVIA.

- The most common adverse reactions (incidence >1%) were (vs vehicle): ingrown toenail (2.3% vs 0.7%), application-site dermatitis (2.2% vs 0.2%), application-site vesicles (1.6% vs 0%), and application-site pain (1.1% vs 0.2%).
- JUBLIA should be used during pregnancy only if the potential benefit justifies the potential risk to the fetus, and should be used with caution in nursing women. The safety and effectiveness in pediatric patients have not been established.

To report SUSPECTED ADVERSE REACTIONS contact Ortho Dermatologics at 1-800-321-4576 or FDA at 1-800-FDA-1088 or visit www.fda.gov/medwatch.

Please see Brief Summary of full Prescribing Information on the adjacent page.

BRIEF SUMMARY OF PRESCRIBING INFORMATION

This Brief Summary does not include all the information needed to use JUBLIA safely and effectively. See full prescribing information for JUBLIA.

JUBLIA® (efinaconazole) topical solution, 10%

For topical use

Initial U.S. Approval: 2014

INDICATIONS AND USAGE

JUBLIA (efinaconazole) topical solution, 10% is an azole antifungal indicated for the topical treatment of onychomycosis of the toenail(s) due to *Trichophyton rubrum* and *Trichophyton mentagrophytes*.

DOSAGE AND ADMINISTRATION

Apply JUBLIA to affected toenails once daily for 48 weeks, using the integrated flow-through brush applicator. When applying JUBLIA, ensure the toenail, the toenail folds, toenail bed, hyponychium, and the undersurface of the toenail plate, are completely covered.

JUBLIA is for topical use only and not for oral, ophthalmic, or intravaginal use.

CONTRAINDICATIONS

None.

ADVERSE REACTIONS

Clinical Trials Experience

Because clinical trials are conducted under widely varying conditions, adverse reaction rates observed in the clinical trials of a drug cannot be directly compared to rates in the clinical trials of another drug and may not reflect the rates observed in practice.

In two clinical trials, 1227 subjects were treated with JUBLIA, 1161 for at least 24 weeks and 780 for 48 weeks. Adverse reactions reported within 48 weeks of treatment and in at least 1% of subjects treated with JUBLIA and those reported in subjects treated with the vehicle are presented in Table 1.

Table 1: Adverse Reactions Reported by at Least 1% of Subjects Treated for up to 48 Weeks

Adverse Event, n (%)	JUBLIA N = 1227	Vehicle N = 413
Ingrown toenail	28 (2.3%)	3 (0.7%)
Application site dermatitis	27 (2.2%)	1 (0.2%)
Application site vesicles	20 (1.6%)	0 (0.0%)
Application site pain	13 (1.1%)	1 (0.2%)

DRUG INTERACTIONS

In vitro studies have shown that JUBLIA, at therapeutic concentrations, neither inhibits nor induces cytochrome P450 (CYP450) enzymes.

USE IN SPECIFIC POPULATIONS

Pregnancy

Pregnancy Category C

There are no adequate and well-controlled studies with JUBLIA in pregnant women. JUBLIA should be used during pregnancy only if the potential benefit justifies the potential risk to the fetus.

Systemic embryofetal development studies were conducted in rats and rabbits. Subcutaneous doses of 2, 10 and 50 mg/kg/day efinaconazole were administered during the period of organogenesis (gestational days 6-16) to pregnant female rats. In the presence of maternal toxicity, embryofetal toxicity (increased embryofetal deaths, decreased number of live fetuses, and placental effects) was noted at 50 mg/kg/day [559 times the Maximum Recommended Human Dose (MRHD) based on Area Under the Curve (AUC) comparisons]. No embryofetal toxicity was noted at 10 mg/kg/day (112 times the MRHD based on AUC comparisons). No malformations were observed at 50 mg/kg/day (559 times the MRHD based on AUC comparisons).

Subcutaneous doses of 1, 5, and 10 mg/kg/day efinaconazole were administered during the period of organogenesis (gestational days 6-19) to pregnant female rabbits. In the presence of maternal toxicity, there was no embryofetal toxicity or malformations at 10 mg/kg/day (154 times the MRHD based on AUC comparisons).

In a pre- and post-natal development study in rats, subcutaneous doses of 1, 5 and 25 mg/kg/day efinaconazole were administered from the beginning of organogenesis (gestation day 6) through the end of lactation (lactation day 20). In the presence of maternal toxicity, embryofetal toxicity (increased prenatal pup mortality, reduced live litter sizes and increased postnatal pup mortality) was noted at 25 mg/kg/day. No embryofetal toxicity was noted at 5 mg/kg/day (17 times the MRHD based on AUC comparisons). No effects on postnatal development were noted at 25 mg/kg/day (89 times the MRHD based on AUC comparisons).

Nursing Mothers

It is not known whether efinaconazole is excreted in human milk. After repeated subcutaneous administration, efinaconazole was detected in milk of nursing rats. Because many drugs are excreted in human milk, caution should be exercised when JUBLIA is administered to nursing women.

Pediatric Use

Safety and effectiveness of JUBLIA in pediatric subjects have not been established.

Geriatric Use

Of the total number of subjects in clinical trials of JUBLIA, 11.3% were 65 and over, while none were 75 and over. No overall differences in safety and effectiveness were observed between these subjects and younger subjects, and other reported clinical experience has not identified differences in responses between the elderly and the younger subjects, but greater sensitivity of some older individuals cannot be ruled out.

NONCLINICAL TOXICOLOGY

Carcinogenesis, Mutagenesis, Impairment of Fertility

A 2-year dermal carcinogenicity study in mice was conducted with daily topical administration of 3%, 10% and 30% efinaconazole solution. Severe irritation was noted at the treatment site in all dose groups, which was attributed to the vehicle and confounded the interpretation of skin effects by efinaconazole. The high dose group was terminated at week 34 due to severe skin reactions. No drug-related neoplasms were noted at doses up to 10% efinaconazole solution (248 times the MRHD based on AUC comparisons).

Efinaconazole revealed no evidence of mutagenic or clastogenic potential based on the results of two in vitro genotoxicity tests (Ames assay and Chinese hamster lung cell chromosome aberration assay) and one in vivo genotoxicity test (mouse peripheral reticulocyte micronucleus assay).

No effects on fertility were observed in male and female rats that were administered subcutaneous doses up to 25 mg/kg/day efinaconazole (279 times the MRHD based on AUC comparisons) prior to and during early pregnancy. Efinaconazole delayed the estrous cycle in females at 25 mg/kg/day but not at 5 mg/kg/day (56 times MRHD based on AUC comparisons).

True friendship is a plant of slow growth, and must undergo and withstand the shocks of adversity, before it is entitled to the appellation.

- George Washington

We are proud to have been the trusted ambassador for the podiatric profession from our very beginning, and we will continue to be an advocate for podiatry long into the future.

For over 35 years, PICA has not wavered in its defense of podiatrists and support of the podiatric profession. At PICA, we don't just say what we mean; we mean what we say. We exist to protect podiatric physicians.

Stop by booth #403 to discover how PICA has been a true friend to podiatrists for over 35 years.

A PHARMACOLOGIC APPROACH TO TREAT UNCONTROLLED GOUT WITH TOPHI

JOIN US FOR AN INTERESTING CONVERSATION THAT MAY CHANGE THE WAY YOU APPROACH GOUT.

Program Highlights

- Recognize that there is more to gout than just the pain of episodic flares¹⁻⁴
- Learn how tophi can cause bone erosions, which can occur without symptomatic pain¹⁻⁴
- Discuss how to recognize uncontrolled gout and learn about a pharmacologic option to treat these patients

July 12, 2018

12:00 PM-1:00 PM ET

Location: Potomac Ballroom A

Speaker: Gordon Lam, MD
